

MCS Civil (NSW) Pty Ltd

HEALTH & SAFETY POLICY

MCS Civil is committed to safeguarding the health, safety and welfare of all its employees by providing a safe and healthy environment for all persons affected by the company's operations. As a responsible employer we believe that effective health and safety practices contribute directly to the better performance of the Company as a whole. Our aims are not simply to comply with Health and Safety legislation but to attain higher standards through the adoption of recognised good practices and to provide industry leadership through our Health and Safety performance.

Chris Murphy, Managing Director, is fully committed to achieving this through a programme of continuous improvement, positively promoting a proactive approach to accident and ill-health prevention.

Mr Murphy has the ultimate responsibility for the Health & Safety Policy and has appointed a safety officer with particular responsibility for advising and informing management on Health and Safety matters. Mr Murphy recognises that the principal means for adequate accident prevention is the development of a safe system of work. MCS Civil has therefore produced systems and procedures for designing safe systems of work for all aspects of its principal activities which have been identified as high risk. All levels of management and operational staff are required to comply with the company's safety rules and procedures and to contribute to their further development.

Mr Murphy also recognises that co-operation and consultation at all levels is essential in promoting a positive Health and Safety culture and the company has developed systems for a HSE communication on matrix on Health and Safety matters. In order to achieve the above principles, the company has put in place the resources and developed in-house systems to achieve the following aims:

1. To execute company operations without harm to personnel, equipment or the environment.
2. To monitor new developments and existing compliance with all relevant legislation approved codes of practice and the Safety Policy as a minimum and to continually improve the performance standards specified.
3. To make health and safety an integral part of the management of the company.
4. To provide premises, plant, substances at work and places of work that are safe and without risk to health and safety, and without risks to the welfare of all the company's employees.
5. To carry out our operations with due regard for the health and safety of non-employees, and to provide them with prescribed information regarding those operations which may affect their health and safety.
6. To ensure employees take reasonable care for their own and others' safety; are competent; and appropriately trained to meet individual responsibilities and needs.
7. To involve and consult with employees and where appropriate their representatives to effectively communicate with them on health and safety matters.

MCS Civil (NSW) Pty Ltd

8. To sustain and develop this policy by the implementation of an accredited health and safety management system.
9. To review the Health & Safety Policy on an annual basis and implement appropriate improvements.
10. To bring changes to the Health & Safety Policy to the attention of all employees and interested parties.
11. We are committed to comply with applicable legal requirements and with other requirements to which the organisation subscribes that relate to its OH&S hazards.

This policy statement is supported by documents and procedures detailing the company's organisation of responsibility and the arrangements for implementing the strategy for health and safety management.

The system complies with OHSAS 18001:2007 and PAS 99:2012. From this system, improvement objectives are generated. This information is made known to all employees and made available to all employees on demand through their line managers.
